At Stardock Corporation, we are experiencing growth and expanding our developer base in Michigan. This is a full-time, non-contracted position. In this role you will be responsible for translating requirements into retail web sites.

We are looking for passionate, talented developers who enjoy having important roles in designing and creating web sites for Stardock. The position will have a variety of responsibilities with opportunity for growth.

Applicant should demonstrate a strong sense of usability and web design. Applicants will be expected to exhibit understanding of how consumers use our web sites. Candidates should have previously work on a team and be self-motivated.

Developers will work both as part of a team as well as individually to design and create products that run on Microsoft IIS and SQL*Server.

Requirements (must have):

- 4+ years of solid web application development experience with n-tier applications using JavaScript IIS, ASP.NET, ADO.NET, HTML and web-services
- Demonstrate experience in development of web applications using n-tier architecture in a Windows .Net environment
- Demonstrated experience in the design of web sites and the use of GUI tools.
- Experience in developing business services objects.
- Excellent communication skills (both written and oral).
- Excellent command of the English language.
- Ability to take direction.
- Ability to work independently as well as part of a team on assigned task.

Requirements (would like to have):

- Minimum (4) four years of experience in the design of n-tier applications with Visual Studio .NET 2.0
- Bachelor's degree in Computer Science or equivalent
- Object Oriented Programming (OOP) experience
- Awareness of Windows Vista technologies

Stardock is the world's leading developer of Windows customization and enhancement utilities. Its software is used by over 10 million people worldwide and has been licensed by trendsetting companies like NVIDIA, ATI, Alienware and Microsoft, plus in movies and on TV. Stardock also makes PC strategy games that have garnered numerous industry awards and have been featured in The Wall Street Journal, Time magazine, US News & World Report, CNN, MSNBC and elsewhere. Stardock's websites are the premiere portals for desktop customization enthusiasts and are visited by millions each month. Find out more about us at www.stardock.com.
